SUMMARY

AI-focused Mobile Software Engineer experienced in building scalable cross-platform apps and integrating intelligent automation systems. Skilled in Flutter, REST APIs, CI/CD, and AI integrations, with a strong focus on performance, reliability, and user experience.

EXPERIENCE

Flutter Developer | CI/CD & API Integrations

Zencloud Technologies 02/2026 - Present Islamabad

Built and maintained cross-platform mobile apps with Flutter. Automated Android and iOS deployments using GitHub Actions and Fastlane. Experienced with REST APIs, Firebase, Supabase, FCM, GetX, and Bloc, focusing on performance and clean UI/UX.

AI Integration & Support Engineer

Ember AI (Part-Time via Remotebase) 01/2026 - 04/2026 Remote

Supported AI-powered development tools and workflows, assisted with debugging and API integrations, and helped resolve issues while enabling users to implement effective solutions and improve overall system reliability.

AI Integration Engineer & Flutter Developer

Duseca Software 07/2024 - 02/2026 Islamabad

Built AI chat, voice, and automation workflows using **REST APIs**. Developing and maintaining cross-platform mobile apps using Flutter. Experience includes Firebase, Supabase, REST APIs, FCM, GetX for state management, image processing, and UI/UX optimization.

GoHighLevel App Developer (AI Automation & Voice Agents)

Spinwheel Assist 07/2025 - 12/2025 Remote

Developed and deployed a GoHighLevel Marketplace app for automated calls, SMS workflows, and AI-driven customer communication, integrating ElevenLabs conversational agents to handle calls and lead qualification while improving accuracy and reducing manual scheduling.

Android & Swift Developer

Meds-Nexus 09/2024 - 10/2024 Rawalpindi

Developed and maintained Android and iOS applications at Meds-Nexus, enhancing user experience and driving healthcare innovation.

PROJECTS

- ❖ **AI Voice Agent (ElevenLabs + GHL)** – Integrated conversational AI agents with GHL workflows.
- ❖ **AI Chatbots (OpenAI/Gemini)** – Implemented LLM chat, prompts, and processing pipelines.
- ❖ **Taqwa Companion** – *Flutter, Firebase, GetX, FCM, Audio Player, Play Console*
A Complete Islamic lifestyle app featuring Quran with audio, Hadith, daily Duas, prayer timings, Qibla finder, and more. Deployed on Play Store with rich UI/UX.
- ❖ **SwimStrive** – *Flutter, Firebase, Supabase, GetX*
Fitness tracking app for swimmers and coaches. Features include performance logs, notifications, training videos, and progress analytics.
- ❖ **Grato** – *Flutter, Supabase, GetX, Deep Linking*
Team recognition app enabling employees to send and receive appreciation awards. Includes role-based access, filtering, and real-time interactions.
- ❖ **4Us** – *Flutter, Supabase, GetX, App Links*
Social volunteering platform for university students to apply for editorial boards and share co-curricular achievements.
- ❖ **War Card Game iOS** – *SwiftUI, XCode, MVC*
An engaging War Card Game app where players compete against the CPU to reach 14 points, developed using SwiftUI and Xcode.
- ❖ **Welsh Heritage** – *Flutter, Firebase, GetX*
Educational and cultural app promoting Welsh heritage, including multimedia content and event participation modules.
- ❖ **Affirmation App** – *Flutter, Firebase, FCM, Android Native*
Mental wellness app with daily affirmations, push notifications, and Play Store deployment.
- ❖ **Mobile Speech Therapy App (FYP)** – *Android Studio, Firebase, OpenAI API, Yoga API*
AI-powered speech therapy app with exercises, real-time assessment, and therapist locator. Secured 2nd position in final year project showcase.

EDUCATION

Masters Artificial Intelligence

FAST NU - 08/2025 - Present

Bachelors Software Engineering

UET Taxila - 09/2020 - 07/2024

SKILLS

AI & LLM Integration

OpenAI API, Gemini API, ElevenLabs Conversational Agents, AI Chatbots, NLP, Voice AI, Prompt Engineering, AI Automation (GHL APIs), Image/Audio Processing

Mobile App Development

Flutter, Dart, Android Studio, Xcode, SwiftUI, Kotlin, Java, GetX, Firebase, Supabase, FCM, Deep Linking, Play Console

API Integrations & Backend

REST APIs, Flask (Python), Supabase Edge Functions, Firebase Functions, Webhooks, JSON, Third-Party SDKs

Web Development

React.js, Next.js (Beginner), HTML, CSS, JavaScript

Programming Languages

Dart, Python, Swift, Java, Kotlin, C/C++

Cloud & DevOps

Firebase (Auth, Firestore, Storage, Functions), Supabase, Git, GitHub, CI/CD (Basic)

UI/UX & Design

UI/UX Design, Figma, Graphic Design, Video Editing

Tools & Platforms

VS Code, Cursor, Xcode, Android Studio, Postman, GitHub, Notion, Trello, Play Console, GHL, ElevenLabs

ACHIEVEMENTS

- **2nd Position in Final Year Project**
Interactive Speech Therapist

Innovative mobile application designed to assist individuals with speech difficulties.

Key Features: Real-time speech assessment tool, various speech therapy exercises (breathing techniques, word repetition, yoga), AI-powered chatbot, community chat platform, educational resources, therapist locator.

Technologies Used: Android Studio with Java, Firebase (real-time database, storage, authentication), OpenAI API, Yoga API.

- **Multiple Certifications in:**

- Coding Competitions
- Graphic Designing Competitions
- Workshops and Events

MEMBERSHIPS & LEADERSHIPS

Member of IEEE Student Activity committee (SAC)

Member of IEEE NUML Student Branch (Media

Team Lead)

Co-Lead of Certified Cloud Applied Generative Ai Engineer Diploma By PLAIC at Air University

Lead In Various CSR Activities (Dates)
